

**Please partner with us
in these exciting new projects!**

The need is now, and this is what we do! We have reliable partners on the ground and a proven track record, making us well qualified to begin these new projects in Lithuania, Pakistan, and Brazil. We have established twelve similar global projects to date. To see photos and learn more about these efforts, visit widowconnection.com, under Global. God has provided in the past, and we are trusting Him to provide for these new projects. Will you be a helping hand and join us today? See the estimated costs on the accompanying card.

We only begin a project when it is totally funded. We are willing and ready to implement the training in each of these areas as soon as funds are available. Yes, our helping hand goes far beyond their immediate need. The training projects teach widows "how to fish" to provide for themselves and for their orphaned children.

Please stand in the gap and pray for God to prompt generosity for each project. Perhaps God is prompting you to help one or more of them get off the ground.

Please consider helping with continuing needs as well. We are blessed to have our two features, *Wise Women Managing Money* and *New Beginnings* on thousands of outlets in the United States and TWR360 worldwide. Radio, podcasts, and daily features uniquely reach people learning to be good stewards of all God has entrusted to them, as well as those going through new transitions.

If you would like to help with any of these needs, please use the enclosed card and envelope.

Thank you in advance for your generosity.

Many blessings,

Miriam Neff
